BOBBED HAIR RUINS CHINESE INDUSTRY

WASHINGTON, April 11.—Bobbed haired American flappers are playing havoc with one of China's chief industries—hair net exportation. Flappers let their locks fly wild and have no use for hair nets. As a result of the short hair style, Convey Street Levicence. Consul Stuart Lupton in a report to the commerce department said hair net shipments from Chefoo, China tumbled 37½ per cent.

street superintendent would oc cupy considerable attention. The first act of the new council will be the election of the president of the board, who is popularly known as "the mayor.". The president of the board will make committee appointments by which each trustee becomes the board representative in relation to one or more departments of the city government. The procedure hitherto has been for the board to rely for its policy largely upon the advice of the committeemen for a

department.

Board appointments may or may not be made the first night. Among positions subject to appointment, together with the names of those now holding them,

are the following:
City engineer, G. W. Knox; city
street superintendent, Edward Dahl; water and sewer superintendent, Walter Wray; building inspector, W. S. Decker; fire chief, John Luxembourger; board of health, Walter Eden, J. M. Backs, Dr. John Wehrly, S. M. Davis and John Cochren.

It is known that Dahl has re cently been a storm center as the result of determined opposition on the part of B. R. Ford, well known street paving contractor. Ford will almost certainly make a fight against the re-appointment Dahl.

Indications today were that there would be more than one applicant for the position. It was stated that James O'Brien, who former board, might become an

THE Snyder New Method

For FEET

Many people who have used this new method know they have corrected their foot trouble and no longer need to waste time and money looking for special shoes and appliances in a vain effort to have good feet. This new method is not an experiment. It is based on such sound scientific principles that when you begin to use it you set in action the natural forces of your body to aid you in the correction of your foot This method especially appeals to busy people, in fact to people in all walks of life, for its application is easy, pleasant and the results are permanent and it can be used in the home whenever it is most convenient for you. With this method you can restore your aches and correct your foot trouble no matter where you are for it does not matter whether your arch is high or low, or how sensitive your feet, ankles or limbs may be, it is so scientifically designed that it meets the requirements of all sizes and shapes of feet from a child's to an adult's. Doctors of every recognized school who are familiar with this new method all agree that it is the only logical, practical scientific method for the correction of foot

familiar with this new method all agree that it is the only logical, practical scientific method for the correction of foot trouble that has ever been offered to the public for it corrects your foot trouble in a natural way.

If you have weak feet, weak or broken arches, or pains in your feet and limbs, you should see Earl S. Snyder, the inventor of this new method who will be at the office of Dr. H. J. Howard, leading Santa Ana Osteopath, Saturday, April 14, and get his new method and start now to have good feet. This is a method for the care and correction of the feet that should be in every home and may save you many times its cost in time and money not to mention the life time of pleasure and comfort you will enjoy from having good feet and being free from cumbersome appliances. Mr. Snyder has permanent office in Long Beach, but while in Santa Ana, Saturday, April 14th will be at the office of Dr. H. J. Howard. You should telephone Dr. Howard, 520-W now and arrange an appointment as this opportunity to secure this new method may not present itself to you again. This new method for the correction of foot trouble is fully guaranteed to give you satisfaction and you yourself are the judge of that satisfaction.

One of the happy events in the annals of the bridge club which meets regularly every two weeks, was the luncheon with which Mrs. Angus J. Crookshank entertained at her lovely home.

Mrs. Crookshank, a former active member of the pleasant little club, is no recognized as "official substitute" and as such attends the greater number of meetings despite her withdrawal from membership. Yesterday she changed from the position of guest to that of hostess and the resultant luncheon and afternoon at bridge offered keen pleasure to the group composed of Mesdames J. E. Gowen, J. E. Paul, Clarence Crookshank, C. E. Lamme, J. P. Baumgartner, F. W. Slabaugh, J. E. Liebig, M. Gardner, Roy Hall, C. A. Vance, club members, Mrs. White and Miss Shirley White, guests.

Luncheon was served at 1 o'clock and tables were banked with a profusion of "every flower that blows," their pastel tints offering a beautifully decorative effect. Gay little Japanese maidens carrying parasols served as place cards. Mrs. Crookshank was assisted by her mother, Mrs. White and by Miss Shirley White.

While the club rule is that no prizes shall be given, the hostess, disclaiming membership, feit that she could also disregard rules, hence a pair of beautifully decorated candles fell to the lot of Mrs.

Santa Ana W. C. T. U. met yesterday afternoon in the United Presbyterian church parlors with newly elected officers in charge, Mrs. J. H. Nickelson, president, and Mrs. Elizabeth Clark, secretary.

Mrs. Fannie Lash led the devotional service after which a short installation service for the newly elected superintendents was held Delegates to the county convention to be held April 17 and 18 in the Methodist church at Fullerton, were elected and it was stated that each member present may act as a delegate. A large number of women are urged to attend from this union as the membership now numbers 288.

The union was favored with two delightful vocal solos by Mrs. Harry Hayes with Miss Carrie Seaton as her accompanist. A very pleasant social hour was held corrected and spent the forenoon and spent the morning sewing both on aprons and on blocks for the famous Calumpit silk quilt which is rapidly nearing completion.

At noon a pot-luck dinner featuring a wide variety of delicactes, was served at a table prettily decorated with similar flowers and two guests present, the variety surprised even those accustomed to California's prodigality of bloom.

During the afternoon the annual election of officers resulted in the leadership of Mrs. G. E. Bruns whose capability is an established fact, was unamed assistant leader, Mrs. W. D. King, Tecording secretary and Mrs. R. Goodwin, treasurer.

FOR LEADERS OF SCOUTS

Finch's message was sent out from Boy Scout headquarters here to supporters of the movement all over the county. It reads as fol-

"Dear Friend of Boys: We ask, for the boys of Orange county five minutes of your time—two in which to read what we have written below and three in thoughtfully helping us in what we ask.
"Do you realize that it is The Scout Program that has put genu-ine camp life for boys on the

attempt at camping when you were a boy. You may forget that there are three boys today eager to "go camping" in Orange county, to each one who has the Scout oppor-

that make up the Boy Scout program including the Scout oath and "They are here—waiting. You are the "logical" person to see that they have the opportunity to

be Scouts. You know men who need only to understand Scouting to go into action on behalf of those boys. You can influence them to become

"There are fathers who wish to heaven their boys were Scouts. "There are mothers who will bless the man who gets their boys

into Scouting. There are communities who

will honor the man who will give leadership to Scouting. "Now, just give us three minutes of concentrated thought by mak-ing a mental analysis of men of your acquaintance and see if you can't list one man who would make a desirable leader of boys and write his name, address and occupation on the back of this letter and send it to the Boy Scouts of America at one of the following places: 120 West Commonwealth, Fullerton: Freemont school, Anaheim; Red Fox Orchards company, Orange; 215 Hill building, Santa Ana, and we will do the rest.

"On behalf of the Orange Coun-

ty Boy Scouts, I am

"Sincerely yours,
"G. W. FINCH, President." Financial Report

At the same time, those who have contributed to the work of the Scouts were sent a financial by Alex. Brownridge, treasurer of the county organiza-tion. This statement shows the total expenditures during 1922 to have been \$11,805.97. Brownridge's

"I submit for your consideration the statement of finances for the calendar year 1922. You will note that the net expenses for 1922 is \$9,282.05, which makes the coun-cil cost less than \$10.00 for every boy we reached with scouting last

HUNTINGTON BEACH, April 11.—Plans for a hospital in this city are rapidly being whipped into shape by an enthusiastic committee working under the joint auspices of the Chamber of Commerce and Lions' club. The members of this group spent Monday in Fullerton making an investigation of the hospital.

When they returned, having the personal direction of the ma tron of the Fullerton institution mittee stated that they had done everything now "except actually building the hospital."

The trip led to a committee meeting held last evening in the office of the chamber of Commerce to get at the practical de tails concerning the project. Fig ures secured from other cities indicate it requires around \$2000 a month to run a nineteen-room public hospital.

There was a brief silence. The man drew his chair a little closer to the table and addressed me with a businesslike air.

"Now, Mr. Martin, or whatever your name is, let's finish this job up," he proposed. "You've got a copy of the speech that Ted Rendall promised his pals to deliver at Liverpool, typed at Mr. Simons' office, Number 23 Dale Street. You've got the original letter from Lord Kindersley, proving up to the hilt why he didn't deliver it; and, he went on, striking the table with his fist, "I am now going to tell you that that 50,000 pounds was handed over to Ted at the National Liberal Club the following evening at six o'clock, and was paid by him, to his own credit, to five different banks on the following inorning. TAPPAN GAS RANGES

In a Twinkling The Hot Breakfast

Spring days produce big appetites, and the only cure for them is hearty meals, ready on the dot. That's the time you'll appreciate more than ever the Tappan-Eclipse Gas Range with its wealth of cooking

Come in and let us show you how this range does its work so quickly and thoroughly. Four fast-working burners on the cooking top quickly prepare the big meals. For cooking strong-odored foods there is an extra boiling lid in the oven bottom. And when you want to rush the steak or chops there's the roomy broiling oven ready for the task. Every meal goes onto the table piping hot, savory, right on time!

The Tappan-Eclipse is just as economical as it is efficient. Burners are raised up close to the utensil—no heat is wasted. It's convenient, too— everything right where you want it.

We have a complete line of these famous ranges. May we help you select the model that will best serve you? The prices are especially attractive.

Foes Tell Views.

Those who scored the proposed charter at the G. A. R. hall meeting labeled it as an effort to centralize power, a means for procuring more money, increased assessments and high taxes, a proposal of the manager plan, which was claimed to have been a failure in many cases and still to be in the experimental stage.

In closing, Head suggested as a campaign plan that the opponents of the charter schedule speeches it the theaters to follow up the talks being made by the proponents; that automobile stickers, more attractive than the "pro" stickers now out, be printed and put on cars; that his office and that of Ben E. Using the operations of the sugar industry and of the cemeterles as examples of the effect of centralized power, Mrs. Uttley indicated that the adoption of the charter would bring similar results to the city.

Mrs. George E. Whitacre Tells of Her Daughter's Breakdown and How Lydia E. Pinkham's Vegetable Compound Made Her a Healthy, Happy, Strong Girl

Every mother possesses information of vital importance to her young daughter, and the responsibility for her future is largely in her hands.

When a school girl's thoughts become sluggish, when she suffers the consequences of wet feet, pain, headaches, fainting spells, loss of sleep and appetite, and is irregular, her mother should have a thought for her physical condition and try Lydia E. Pinkham's Vegetable Compound, which has proved a reliable aid to nature for just such conditions in so many cases.

Exchange Manager Declares Belief That Yield Will Be Excellent

Although the majority of grove owners in Orange county have re ported that valencia oranges are ripening rapidly, there will be no pretentious shipments of the golden fruit before the first part of May, according to L. D. Palmer, secretary-manager of the Orange

Economic Aspect of Poor Vision

The value of your eyes-the sense of sight—cannot be expressed in any terms. Next to life itself, and yet millions have defective eyes. great majority are unaware of impaired vision and do not know that their's is less than a full measure of the most valued of the senses. Many others do not understand that a considerable degree of the vision they do enjoy is gained only through nerve exhausting eyestrain.

Looking at this condition from a

purely economic angle, one is appalled at the resulting waste of effort and the inefficiency of millions who daily contend with the handicap of faulty vision.

As to the prevalence of defective eyesight recent studies show some startling results. In the examination of more than 10,000 employes in factories

and commercial houses, 53 per cent were found with uncor-rected faulty vision, 13 per cent had defects which were cor-rected, making a total of 66 per cent with defective eyes. In one manufacturing establishment over 70 per cent were found with defective eyesight.

In another plant the following startling conditions were found to exist: glasses worn and satisfactory—eight per cent; asses needed and ordered-83 per cent; no glasses needed,

eight per cent.

As an example of the inefficiency and resulting waste, 20 per cent of the inspectors in a large factory were found to be unable to see sufficiently well to detect defects in the products they were inspecting. This is an intolerable situation and inexcusable when the remedy is so simple and inexpensive.

There are 42,000,000 gainfully employed in the United States; over 25,000,000 are handicapped by defective vision or

What does this prevalence of defective eyesight mean to the store, the office, the factory, the bank and in every place of

business? What does it mean in production?

That is our big problem of today—greater production at less cost. The nation must produce more and waste less. Full production and less waste are only possible when the individual is normal physically.

We have given more attention to the perfection of machin-ery than we have to correcting the physical defects in the in-dividual. We have developed the mechanical and neglected the man. More consideration is needed for the human element-more attention to the fitness of the individual.

No physical defects contributes more directly to fatigue and inefficiency than eyestrain or is more responsible for waste of vitality, effort, time and material.

As he gets fewer and fewer eggs he wonders why, and when finally disease why, and when linely disease creeps in, and the \$2.00 per is transferred to the red ink side of the ledger, he is ready to quit, and tell his friends there is no money

How well I remember some three years ago, when I had similar notions. We were raising chickens then, my wife and I, on the above-mentioned hit or miss em, sublimely comfortable in the belief that we knew as much about chickens as the best of them. Our ideas on poultry were middle west ideas, and we were soon to learn how little we knew of the poultry business in Califor-

nia.

That year we were brooding a small flock of as pretty Ancona baby chicks as one could wish to see. For a few weeks they did beautifully, then suddenly, one bright spring morning, they began to droop, mope around and finally die. We consulted many of our neighbors. Each had a different theory and different advice. We tried them all, but the chicks continued to die. The brooder house tried them all, but the chicks continued to die. The brooder house floor was covered with bloody droppings, the chicks were pale and lifeless, their feathers ruffled, but these symptoms meant nothing to us then, beyond the fact that we knew they were sick, and we continued our same methods of feeding and brooding.

When the death toll finally stopped, we had exactly 12 chicks left out of a lot of 125.

-ioaM...xz fETAOI E7AHTETTTT
Another little kink is in stretching a garden line. In the first place the line should be of good, heavy, strong cord and two good stakes should be driven solidly into the ground at the ends.

After the line is tightly stretched between the two stakes, straighten it by lifting it near the center and allow it to drop into place just as a carpenter does in "striking" a chalw line.

Still another kink is in the use of the corner of the hoe drawn with the edge against the tightly stretched line for making a drill in which to plant large seeds, such as peas, beans and corn.

For making small furrows invert the hoe and mark along the line with the smooth, rounded end of the handle.

The back of a hoe is perhaps the best tool for firming the soil

After the peas are gathered the netting is rolled into a compact roll and stored overhead in the garage until next season.

When it comes to cultivating the garden more of the same kind of kinks are at the gardener's beck and call.

Most work could not even start without cement for foundations.

With this in mind let's see where the cement industry stands today.

Last year the country used over 460,000,000 sacks of portland cement. Capacity to manufacture was nearly 600,000,000 sacks.

Cement cannot be made everywhere, because raw materials of the necessary chemical composition are not found in sufficient quantities everywhere.

It is now manufactured, however, in 27 states, and there are 117 plants—some one or more within easy shipping distance of nearly every part of the country.

Conservative estimates place the capital invested in the cement industry at \$300,000,000, and value of output for the last 5 years at \$860,000,000.

Capital requirements are large -turnover is slow-on an average less than 3 times in 5 years.

The capacity of these plants is 30 per cent greater than the record year's demand.

The Everyday Meaning of the "Check" Seal

TUST as the word "Sterling" identifies solid silver, the orange and blue "Check" Seal of the Pacific States Electric Company identifies standard electrical merchandise and reliable electrical contractor-dealers. Contractor-dealers who display the "Check" Seal operate on the basis of good workmanship, standard materials and fair prices.

This means that when they wire a house the work is done right, and that it will stay right. It means that they will provide electrical outlets in sufficient number and at the proper places to insure complete electrical convenience, and that the cost will represent the true value of the installation.

Whenever the "Check" Seal is found on electrical merchandise it means that the article is the best of its kind, such for example as the Hotpoint appliances here displayed.

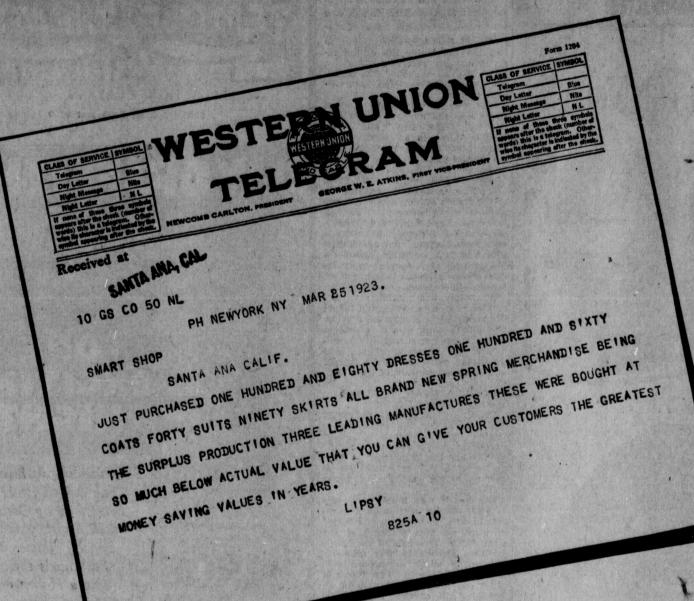

It means further that these articles have been inspected and certified as standard by the Pacific States Electric Company, the largest distributors of electrical merchandise on the Pacific Coast, and that each one has all of those qualities which the "Check" Seal represents.

Ask for the "Check" Seal

The electrical appliances shown on this page, together with other standard electrical products, certified by the "Check" seal, are described in our new booklet, "The Electrical How for Householders." You will enjoy this booklet, with its many practical suggestions for the convenient and economical use of electricity in your home. It may be obtained free from any electrical contractor or dealer displaying this seal or by writing to one of our offices.

Hollywood has been held up to he light as a modern Sodom and norrah, but it has taken Elino Glyn, the gifted English authoress

play which opens at the Yost theater tonight.

The woman who made herself famous as the author of "Three Weeks," "One Day," and "The Reason Why," in an interview declares herself strongly on the morals of the picture center. "There is no vice in this snug little city of studios and bungalows. True, there are those who, basking in the radiance of popularity are unable to stand prosperity, but on the other hand for every trespasser of the law there are hundreds of screen players who are hundreds of screen players who are hundreds of lessons in correct deportment."

Mrs. Glyn has written a vital and vivid story showing the inside life of a typical Hollywood actress. She shows that a star is subject to the same hopes and disappointments, the identical whims and impulses as constitutes human nature in every walk of life.

also had been for many years an official of his district of the Miscouri synod. He comes to Orange highly recommended as an exceptionally able Bible scholar, a profound theologian, a fine preacher, and a true and modest Christian gentleman.

The testimonial letter of his congregation in Good Thunder to St. John's here states that the members of his flock acquiesced in his departure with heavy hearts, and only then, when their beloved pastor stated that he felt in conscience bound to accept the call to Orange.

Next Sunday afternoon special services will be conducted in St. John's church in which the new pastor will be installed. Rev. William Schmoock of Santa Ana, who served during the vacancy in St. John's, will have charge of the services with the solemn installation rites, assisted by a number of pastors of the Southland. Arrangements have been ber of pastors of the South-land. Arrangements have been made by the women of the con-gregation for a "get acquaint-ed" reception to the new pas-tor and his family for the

Orange League Rules With Garden Grove Nine To Be Replayed

(Special to The Register) TUSTIN, April 11.-The protes filed by Coach Earl Murray in regard to the Tustin-Garden Grove baseball game played at Garden Grove March 23, has been allowed and the game is to be played over on neutral grounds at a date agred upon by both schools, it was learned here today. The protest was allowed on the grounds that Garden Grove failed to provide

Satisfactory baseballs.

Last week the Tustin nine played the Huntington Beach nine a 3 to 3 tie, showing considerable Innings. The darkness.

Tennis tryouts are in process here this week. A series of tournaments are being put on by Coach Muray and the boys team will probably be picked next week. Miss Stella Yocum is in charge of the girl's tennis team.

LAKELAND, Fla, April 11.—
The best looking outfielder to break into the American league since the days of Cobb, is the complimentary manner in which Tris Speaker refers to young Homer Summa, who will hold down right field for the Indians this year "Unless Summa."

NEW FOUL RULE IS

ENACTED FOR 1924

BASKETBALL SEASON

NEW YORK, April 11.—One man basketball teams were legally killed here today when the rule committee passed a radical new foul rule. In future, the player against whom a personal foul has been committed will have to make the attempts at a free toss instead of the regular "foul shark" on the team. Technical fouls will permit any player on the team to try for the point.

Another rule requires that high

Gotham Boxing Commission Mogul Gets Official Rebuke from Smith

BY HENRY L. FARRELL (United Press Staff Correspondent NEW YORK, April 11.—All the poor ex-champs who have been tied outside to watch the devour ing of the boxing plums probably will make a rush for the table now that Governor Smith has officially rebuked William Muldoon, chair-man of the New York commission. The action of the governor, going back to the former method of regulating the sport by a li-cense commission and a regulatory commission and in appointing a prominent lawyer to act with Muldoon on the former commission, undoubtedly was designed to

commission to act as arbitrarily as it has in the past.

"Duke" Under Restraint

Many of Muldoon's edicts in the past wouldn's stand the test of legal action, and, since he will have with him now a prominent attorney, it is more than likely that the "duke" will be under more restraint than he has been in the past.

Virtually everyone in New York, outside of those who have big irons in the fire, believe that Muldoon has done big things for boxing all over the United States and

there is no general desire to see him shorn of his power.

The present arrangement by which Muldoon can be guided by legal counsel no doubt will prevent what few mistakes he has made in the past in over-stepping the legal bounds of his jurisdic-

TRADE YOUR OIL STOCK FOR THIS GOOD LAND-

In picturesque Antelope Valley, where development is going ahead rapidly, we have 640 acres with the boulevard running right through the middle. This is 1½ miles from town. It adjoins the finest pear orchard in the valley. There is abundant natural water. This valley is rapidly filling up with land owners who see great possibilities. Like all other parts of California it is going to sell at a premium in the near future. The owner of this property will cut it up into 40-acre pieces and trade it for good oil stock. If you have some you can spare, this would be a good time to turn it into a going proposition. The price offered is \$25 per acre. There is no acreage in the valley that is watered to sell for cash at a lower figure.

How would you like to trade a house in S. A. or in Orange for a nice five-acre ranch in El Toro? We have a man who works in Orange and lives on this El Toro property. He wants to get hearer his work. It is a splendid place to raise chickens, ducks, etc. There are three acres 10-year-old walnuts, 1 acre apricots and other fruit, large house, and other buildings, windmill and engine, large tank and plenty of water all the time. The price is \$8000. If you have a house or two or a house with an acre or two this would make a fine trade.

If you have a friend with around \$10,000 who wants to make \$1000 to a rooming house, tell him about this. It is one of the finest in the county, newly and completely equipped with 66 rooms, 26 with private bath, all with bath and hot and cold water. It is really a high class place and we'd like to buy, or sell or trade we'd like to know it. We are running a clearing house for other people's troubles and we'd like to know yours.

Better men fared thus before thee;

Fired their ringing shot and passed. Hotly charged—and sank at last.

Let the victors, when they come,

When the forts of folly fall,

Find thy body by the wall!

ily goes out strangers think it is a picnic.

Charge once more, then, and be dumb!

Oh if you write a story, a story brave and fine With thrills in every chapter and art in every line,
Still all its glow and glamor will
be but fugitive
Unless you put some love in it—
for Love's what makes it live.

And if you sing a carol with lovely words and tune
That ripple like the waters be neath a silver moon,
Its magic will not tarry or linger very long
Unless you put some love in it, for
Love's what makes the song!

What if your deeds be splendid,
what if your fame be wide?
These are but transitory and will
not long abide;
However you be lauded, however London women are wearing monocles, proving untrue the belief women are particular about what they wear.

So if with pen you labor, or brush or spade or maul, And if you fashion statues, or towers proud and tall, whatever be the talent or artistry. So if with pen you labor, or brush or spade or maul,
And if you fashion statues, or towers proud and tall,
Whatever be the talent or artistry that's yours,
Be sure to put some love in it—
for Love alone endures.

Green Vegetables and Mealth

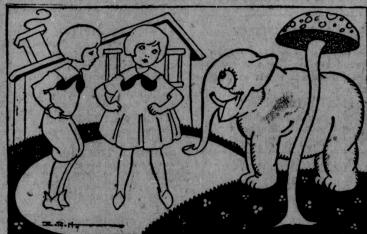

An up-to-the-minute rival of the Washington Irving high old-time pie-eating contest has come into vogue with the green vegetable-eating contests, which are being introduced to high school students all over the country by Professor Happy, of the American Child Health association.

In certain salient features, as Professor Happy, whose less-used

When Nancy and Nick left the chard of sundae-trees to the place Cut-Out Lady's house, all the Su-gar-Plum Landers crowded about in a house made of bricks of ice

Not one of them was walking on his head in spite of the fact that the Gingerbread Man had said everybody must walk on his head for a week.

"What happened?" asked the Knick-Knack Elephant.

"It's all right," nodded Nick.

"The Cut-Out Lady won't make the Gingerbread Man cross any more because we gave her a heart and another good eye. So now he won't make any more bad laws for you to break."

"Oh, goody," cried the elephant turning a back somersault.

"Let's all go to the Gingerbread Man's palace," said the Chocolate chips.

"We have good news, your majesty," said Nick. "The Cut-Out Lady will sew your buttons on straight after this."

"Thank goodness!" answered his royal highness. "Now I'll make my dog let her cat alone. And I'll make better laws, too. There! I feel a law coming now. I'll have to make it. Here it is! Nobody is to do any work at all!"

"Hurrah!" cried all the Sugar-Plum Landers.

"We've Nancy and Nick to thank for that," said the Green-Sugar Pig.
